Feedback

- Very informative
- I would access the supervision network
- Recently attended Takarangi competency workshop – helped for today
- Can certainly start addressing gaps in our service – very excited!
- Thrilled about offers of mentorship, training, supervision
- Need support from managers and P&F – without them, no change will occur

Feedback cont'd

- A lot of gov't initiated changes – little time to streamline
- Can start conversations
- Lots to read and take in
- Perhaps a well developed organisational culture change process
- Resources for training

Lakes

Observations

- Mostly a good turn-out of the “right” people
- A lot of feedback about understanding what each service does
- Questions about recognising a CEP capable/enhanced practitioner
- On the whole, most welcoming and appreciative!
